Standardised Learning Platform and Device Integration

Bring collaborative learning to the classroom

Bring collaborative learning to the classroom

With SMART Notebook educators can **easily create** engaging, interactive learning experiences with the **flexibility** to respond to student needs in **real-time**.

SMART Notebook leverages teacher and student devices and facilitates **standardization** across all platforms.

DIGITAL
Citizenship

Bring collaborative learning to the classroom

SMART amp is an all in one, **cloud-based** digital canvas that empowers students to **explore** and **co-create** on student devices while teachers can see, in real time, how students are **contributing** and learning.

If your students use mobile devices in the classroom, there is nothing else like it!

Citizenship

The Value of Professional Development

Many (most) teachers do not know how to adapt their teaching and classroom management practices when technology is thrust upon them.

He was responsible for the Khanya Project which was tasked with equipping schools in the Western Cape with computer technologies.

In the decade that the project ran, he spent a budget of R1bn and trained 27 000 teachers to use technology in the classroom.

His rule of thumb for technology deployment is that half of the budget should be set aside for teacher training and ongoing support to ensure that the institutions and government derive value from the technology.

Factors to consider when choosing Classroom Technologies for Teachers

... easy to use

... lesson design

... delivery of lessons

... easy access to content online and offline

DIGITAL
Citizenship

Factors to consider when choosing Classroom Technologies for **Students**

- ... engage students in their journey of learning
- ... foster collaboration inside and outside of the classroom
- ... track learning through assessment
- ... seamless integrating with eContent

Factors to consider when choosing **Devices** for Classroom Technologies

... Software integration with all devices

... foster collaboration

... engage students

... explore
